EDUCATION

Northeastern University

Master of Science in Computer Science, GPA: 3.81/4

Nagpur University

Bachelor of Engineering in Computer Science, GPA: 8.34/10

Boston, MA

Sep 2024 – Aug 2026

Nagpur, India

Aug 2017 – Apr 2021

TECHNICAL SKILLS

Languages: Java, TypeScript, Python, Go, C#, C++, SQL, JavaScript (ES6+)

Frontend Technologies: React, Next.js, Redux, Angular, HTML5, CSS3, Material UI, Tailwind

Backend & Database: Node.js, Express, ASP.NET Core, Postgres, MySQL, MongoDB, REST APIs, Redis, webhooks, GraphQL, Microservices

Cloud & DevOps: AWS, Azure, GCP, Docker, Kubernetes, Terraform, Linux, CI/CD (GitHub Actions, Jenkins)

Certifications: Azure Developer Associate, Azure Fundamentals, Microsoft Certified Professional

EXPERIENCE

Software Engineer Intern

Sep 2025 – Dec 2025

Nokia

Sunnyvale, CA, USA

- Engineered **backend** AI agents using **Python** and **LangChain**, reducing manual QA workload by 45%
- Architected scalable **microservices** and optimized **Postgres vector** queries to manage **router testbed configuration data**, improving system performance by 60%
- Implemented responsive **Frontend** interfaces using **React** and **Next.js** for human-in-the-loop oversight, ensuring compliance across **distributed systems**

Software Engineer

Jun 2021 – Jul 2024

Accenture

Mumbai, India

- Developed a **Full Stack** GenAI chatbot using **React** (Frontend) and **C# ASP.NET Core** (Backend) for global clients
- Deployed and managed **Azure cloud infrastructure**, ensuring high availability for multi-tier applications
- Optimized **SQL** queries and implemented server-side **caching**, reducing API response latency by 35%
- Enhanced **Microsoft Bot Framework** dialogs, integrating Cognitive Services to improve user interaction flow

Software Engineer Intern

Jul 2020 – Mar 2021

IT Networkz Infosystems

Nagpur, India

- Architected scalable web applications using **Java** and **React**, optimizing enterprise-grade performance
- Implemented interactive UI components with **TypeScript** and **React Hooks**, improving user engagement metrics
- Engineered secure **RESTful APIs** using **Node.js** and Express to handle high-volume traffic
- Automated deployment processes by 40% by building **CI/CD pipelines** with **GitHub Actions** and **AWS CLI**

PROJECTS

Resume Builder Web App | GitHub (UI) | GitHub (Server) | React, Node.js, GCP Cloud Run, Docker May 2025

- Designed a responsive **Frontend** using **React** and TypeScript to provide a seamless user interface
- Containerized the **Node.js backend** using **Docker** and deployed on **Google Cloud Run** for auto-scaling
- Integrated **Gemini GenAI** API to automate content generation, reducing user drafting time significantly

Personal Photo Gallery | GitHub | React, Node.js, Firestore, GitHub Actions

Apr 2025

- Built a full-stack application using **React** (UI) and **Node.js/Express** (API) for efficient media management
- Leveraged **Google Cloud Storage** and **Firestore** NoSQL database for scalable, serverless data handling
- Implemented **DevOps** best practices with **GitHub Actions** for continuous integration and deployment (CI/CD)

AWS Cloud Infrastructure | Terraform, EC2, IAM, Auto Scaling

Jan 2025

- Provisioned **Infrastructure as Code (IaC)** using **Terraform** modules for reproducible AWS environments
- Secured cloud resources with **IAM roles** and KMS encryption, ensuring strict security compliance
- Configured Application **Load Balancers** and Auto Scaling Groups to maintain 99.9% uptime

AI Course Advisor | GitHub | React, Redux, Node.js, Vercel/Railway

Nov 2024 – Dec 2024

- Developed a smart recommendation engine using **Llama-70b** LLM via Groq API integrated with a **Node.js** backend
- Managed complex frontend state using **Redux** and implemented secure **JWT** authentication
- Deployed the frontend to **Vercel** and backend services to **Railway**, ensuring seamless cross-platform integration
